MEDICAL SOCIETY TO ENLARGE WORK

PLAN LECTURES BY SPECIALISTS FOR LATER MEETINGS

DR. DEAN TO STATE MEET

County Court Considering Appointment of Public Health Officer Instead of Former County Physician

Dr. L E Dean has been appointed delegate from the Nodaway county medical society to the meeting of the State medical society which will be held at Jefferson City April 6-7-8 Dr H S Dowell has been chosen alternate The appointments were made at the regular meeting of the county society held last night at the city hall Dr Dowell vice president of the society presided at the meeting in the absence of the president Dr C V Martin and the principal event of interest was the reading of a paper by Dr Dowell upon the subject "The county medical society as an organization"

Plans were also discussed for an enlarged work of the Nodaway county organization At the January meeting officers elected for the coming years were Dr C V Martin president Dr H S Dowell vice president and Dr L E Dean secretary On account of the absence of so many of the county physicians during the war and epidemic of the winter the meetings of the society have not been held regularly for some time Arrangements are being made now for special meetings and it is the intention of the officers to secure specialists to give lectures at some of the future meetings

The state law relative to the appointment of a county physician has recently been revised making the office that of a county public health officer

The modification of the law makes no change in the work of the office except that it is a state instead of a county office and the holder is given supervision of the sanation and health laws of schools and other public institutions The appointment of the health officer is now before the county court and will be made at the next session of the court

CANADA NOW FACING BIG LIQUOR SHORTAGE

Dominion Fears a Dry Spell Until the Distillers Can Produce a New Supply.

Detroit, Mich.—Although legally "wet," Canada is in danger of becoming "dry" because of an acute liquor shortage. Moreover, this condition of aridity, liquor dealers and liquor consumers fear, is likely to exist for two years, or, in fact, until new distillations become available.

So serious has the shortage become, according to reports reaching Detroit, that liquor has advanced greatly in price at government stores and at legitimate agencies, and even the bootleggers are charging fancy prices. Symptoms of dryness are becoming so pronounced as to be alarming.

Hiram Walker & Sons are refusing orders, their nine warehouses having either been emptied or being covered by orders already booked, and most of the Montreal agents are also refusing to accept new orders. Walkers' had not been distilling for three years, and in the last year distilled a comparatively small amount Their reserves ahve been sold, and while they are distilling at full capacity now, the Canadian law will not permit the sale of whiskey before it is two years old. The better grades are not sold until they have been held five years.

Prices of whiskey, at legitimate sources, have risen from $1.75 a bottle to $2.80 a bottle in the cheaper grades, while the bootleg prices approach Detroit's. Some of the bootleg whiskey is adulterated, while certain minor agencies in Montreal are charging $20 a case for whiskey, purporting to be good brands, and delivering bottles with broken seals, full of some unknown breed of firewater.

One does not need to be in the building material business to know the reasons as all to the tremendous house shortage, not only in Maryville, but in every village, town and city in the entire United States.

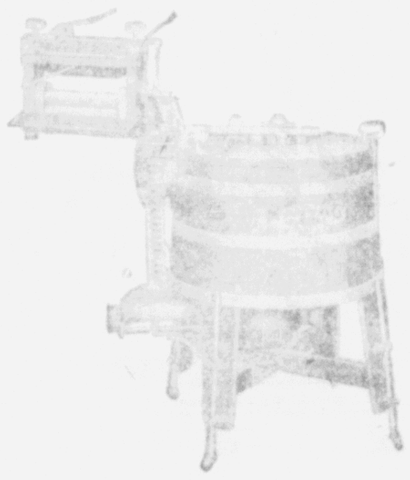
This is easy to explain, for during the period we were in the war, the government discouraged building operations of all kinds, with the result that we are now two years behind.

The question is frequently asked of us, "WILL NOT BUILDING MATERIAL AND GENERAL BUILDING COSTS GET CHEAPER?" As to this we cannot tell. In our opinion it will not be materially changed for some years.

Your guess on this subject is just as good as ours, but one thing is certain and that is that the large cities must stop their enormous building operations before we will be affected with declining prices.

Your best judgment directs you to buy only as you need it during this time when the purchasing power of the dollar is only thirty-three cents, and this is true in the use of any commodity such as groceries, meat, clothing, shoes, etc.

It is therefore our suggestion that you build only as you need it. (This is no time to speculate on the Bull side of any market), but there are many people needing homes in Maryville, and perhaps they can better afford to build them now than in the years to come.



Will you have a

Maytag

Next Monday?

or will you get up early and start to boil and rub and scrub half the day and have the muss and steam and dampness around the house all day?

With the MAYTAG you can have the clothes out in an hour without ever putting your hands in the water out with strong soap.

You can save enough in fuel, fuss and labor to pay for a MAYTAG in a short time.

Come in tomorrow and let us show you how easy it is to wash with the MAYTAG Electric Washer.

THIRSTY OXES HEED "WHITE MULE" SIGN.

Vincennes, Ind.—"White Mule for Sale". Thirsty ones who heeded this inviting sign tacked on to the door of a stable, found a real, somewhat alive white mule for sale. Here's the story as told by one of the Federal agents who aided the state prohibition enforcement commissioner in a recent round up of whiskey peddlers in this section of the state. A clique of bootleggers purchased an old model white mule, scoured the animal up, placed him in a stall and then hung out the sign. Those interested enough to inquire were "sized up" thoroughly. If in doubt the bottleggers' representative on duty displayed the mule's good points and quoted a price far beyond reason. If the prospect looked "safe" his thirst was quenched.

A LETTER FOR WOMEN

From a Woman Whose Serious Illness Was Overcome by Lydia E. Pinkham's Vegetable Compound.

Garnett, Kas.—"I first took Lydia E. Pinkham's Vegetable Compound for a complete nervous breakdown following the birth of my oldest child. I got up too soon which caused serious female trouble. I was so weak that I was not able to be on my feet but very little and could not do my housework at all. I had a bad pain in my left side and it would pain terribly if I stepped off a curb-stone. One day one of your booklets was thrown in the yard and I read every word in it. There were so many who had been helped by your medicine that I wanted to try it and my husband went to town and got me a bottle. It seemed as though I felt relief after the second dose, so I kept on until I had taken five bottles and by that time I was as well as I could wish. About a year later I gave birth to a ten pound boy, and have had two more children since and my health has been fine. If I ever have trouble of any kind I am going to take your medicine for I give it all the praise for my good health. I always recommend your medicine whenever I can."—Mrs. EVA E. SHAY, Garnett, Kansas.
